- CASTELFIDARDO (AN)

The 35th edition of the International Castelfidardo Accordion Festival will be held from 5th until 10th October 2010.

Thanks to last year's success the Festival will be hosting very important guests who are famous for their personal contribution to music and who will play the accordion backed by many different forms of artistic expression.

The International Award and Contest for Soloists and Accordion Groups will take place at the Astra Theatre.

The amazing Festival Route becomes longer than ever and has been enriched by new theme events, live day and night shows as well as a Club to entertain children with musical games and education.

An exciting new Music Reality Show will again be organised: a Creative Suite will be fitted out with all the most advanced audio-video technologies, in which three polyhedral artists will live for the entire week of the Festival in direct streaming 24 hours a day.

During their stay in the house the artists will alternate daily life jam sessions with creative activities, enriching the location with musical and expressive experimentation of a very high artistic level.
